The Herald's Washington correspondence says it was the Treasury ring, and not the law of 1789, that ruled out Stewart. That law, the correspondent says, has been a dead letter on the books for years. It provides that the Secretary of the Treasury shall not purchase public lands or public securities, and yet the official records show that Secretary McCulloch, since he took the office, has purchased 7010 acres of public lands. The correspondent also insists that, were it not for the weakness of some of the President's friends who quaited before the clamor of the Treasury ring against the appointment of Stewart, two-thirds of Congress would willing'y have voted for | 12-17 the repeal of a law which has become

obsolete and useless.

TEXAS. GALVESTON, March 16 - From the Brownsville Ranchero of the 7th we get extracts from the Matamoras Observador of the 6th, which say that a courier had just arrived bringing the news of the defeat of Vargos, who, in his blindsen and courage, dared to attack Martenez's position at Sang, and after a combat of two hours Vargos shamefully retreated into the woods, leaving the field covered with his dead. General Cortina rigoronely pursued Vargos into the woods When the courier left Vargos had been completely defeated. The State of Gaumphias will now enjoy peace, security and order, which has been so long interrupted.

Governor Bustemente entered San Luis Potosi on the 13th ultimo amid great rejoicings.
